Front-end engineer with 4 years delivering accessible, component-driven UIs and API-integrated web apps. Rebuilt 4 enterprise apps with DPS and supported 100+ internal apps serving 100K+ users, with emphasis on TypeScript, Vue 3, testing, and accessibility (WCAG 2.2). MA in Clinical Mental Health Counseling, passionate team collaborator, looking to grow in my career.

Professional Experience:

Software Developer - *Denver Public Schools* - 07/2023 - 06/2025 - Denver, CO

- Rebuilt 4 enterprise applications (TypeScript | Vue3 | Pinia | C# .NET)
- Operated and supported 100+ custom legacy applications used by 100k+ users; triaged bugs, shipped fixes and expanded documentation for maintainability.
- As part of a team of 3, built a C# console app automating critical annual database rollovers, reducing inefficiencies, repetitive manual steps and reducing risk.
- Conducted accessibility audit of our applications, identifying in backlog of issues (Accessibility Insights | Axe DevTools). Implemented fixes to align with WCAG 2.2 guidelines.

Software Developer - *Bitwise Industries* - 09/2021 - 06/2023 - Remote, (Fresno, CA)

- Delivered client features (Angular | React | TypeScript | JavaScript | Python | MongoDB) collaborating in Agile project teams across multiple projects.
- Mentored 4 QA/front-end apprentices on testing, documentation and code review practices

Core Tech: TypeScript, JavaScript, Vue 3, React, Pinia, Jest/Vitest, Cypress, Vite, SCSS/Tailwind, REST APIs, .NET/C#, Python, SQL, CI/CD (GitHub Actions), Accessibility (Axe, Accessibility Insights), i18n.

Projects:

Creative Corvid Portfolio Site: www.creativecorvid.com - Vue 3, Pinia, Vite, Vitest, AWS Amplify

- Built a reusable component/style library, deployed to NPM (www.npmjs.com/package/creativecorvidstylelibrary) and utilized to build my portfolio site, with CI/CD, unit testing and demonstrating component architecture and FE tooling depth.

MindSignal - NLP risk classifier - Python, scikit-learn, NLTK

- Research prototype that flags mental-health risk in Reddit posts (logistic regression + NLP preprocessing). Exploring packaging and cloud deployment.

Education:

Naropa University - *Master of Arts* - Clinical Mental Health Counseling - Graduated: May 2018

University of Redlands - *Bachelor of Arts* - Psychology - Graduated: May 2011
